

PDF/VT-1 Document Sample

Variable Data & Transactional Printing

This document demonstrates PDF/VT-1 (Variable Data and Transactional Printing) capabilities using iText 8.0.5 for .NET. This version is based on PDF/X-4 and uses PDF 1.6 features.

Key Features of PDF/VT-1:

- Document Part Metadata (DPM) for tracking individual records
- Efficient reuse of common resources across pages
- Support for encapsulated external content
- Optimized for high-speed variable data printing
- Built on PDF/X-4 foundation for print production
- Uses PDF 1.6 with transparency and layers support
